

Activity for Science w.c. 11th May 2020

Visit this website:

<https://www.switchzoo.com/games/habitatgame.htm>

Build your own habitats that suits Beatrice, a Lizard, a Beaver, a Polar Bear and a Manatee. Record your findings on paper.

When you have completed this, choose one of the animals. Draw and colour in their habitat. Once this is finished, label the picture by stating how the habitat suits your chosen animal.

Challenge: Make your own Bird Feeder! Follow the link below:

<https://www.rspb.org.uk/fun-and-learning/for-kids/games-and-activities/activities/make-a-recycled-bird-feeder/?channel=paidsearch&gclid=EAlaIQobChMIgs3VgNX76AIVTO7tCh3l1gzQEAYASAAEgIDJ D BwE>

When you have finished it, place it in your garden and see if any birds are using it! Think about why they would use your bird feeder. How does the environment around and the habitat help birds?
