

## Red Bubble Team

To stop people from sharing their germs and getting sick our school was closed. I had to stay at home with my family and stay safe.

My school has been closed for a very long time, but the Government who are in charge say it is now safe for me to go back to school.

Some children may be feeling excited and happy about going back to school but some children may be feeling worried or sad. It is ok to be feeling like this.

When I go back to school things are going to be a little bit different. I won't be in my classroom with all of my friends and my teachers. This isn't because I have done something wrong, it is because we need to make sure we stay safe and keep the germs away.

I will be working with a small group of my friends and 2 teachers in a little group called a bubble. I will stay with this bubble every day when I go to school.

I don't have to wear my school uniform, but I can if I want to. All I need to bring to school each day is my water bottle, I don't need my bookbag.

I am in the **Red Bubble Team**.

My teachers are Mrs Clarke and Mrs Brooks.

Sometimes Mrs Clarke and Mrs Brooks might wear something called PPE, this includes a mask, visor, aprons and gloves. They might need to wear this to keep us all safe.

The classrooms might look a little bit different too because we can't play with all of the toys at the moment and some of them have had to be put away.

The **Red Bubble Team** will use this classroom and I will have my own carpet spot and my own table with a drawer of resources.

When I go into the playground in the morning there will be boxes with spots on the floor. I need to stand in a box every time I need to line up. This is the **Red Bubble Team** entrance. This is where I will go into school each morning.

Each bubble have their own toilets that the girls and boys will all use. These are the **Red Bubble Team** toilets.

There are lines and arrows on the floor in the corridor to help everyone to keep away from each other.

Everyone at school will have a packed lunch at lunch time. I will eat these with my friends in my bubble. If it is sunny we can eat our lunch outside.

We will still be doing lots of fun things at school like PE and music and will be able to play with some of the toys.

On Fridays I will stay at home. I can join in with the Reception group Zoom meeting and see all of my friends.
