

Science Activity w.c. 15th June

This lesson will focus on the importance of keeping our teeth healthy through an experiment.

Part 1

You will need:

- 3 Eggs
- Vinegar
- Coke
- Milk
- 3 containers / jars

Follow this video for the instructions for the experiment. Make sure you stop the video after 46 seconds:

<https://www.youtube.com/watch?v=rYQ7ZIG7wQk>

What do you think will happen? Why?

Part 2

What do you know about tooth decay and why it happens?

Complete Part 3 of the activity on the web page:

http://resources.hwb.wales.gov.uk/VTC/need_my_teeth/eng/Introduction/default.htm

Also, the page on tooth decay at Activity 1 – Tooth Decay and Prevention:

<http://www.crickweb.co.uk/ks2science.html#teeth>

Complete **Labelling Tooth Structure Sheet** and **Stages of Tooth Decay and Repair Sheet**.
