The Amazon Rainforest

The Amazon rainforest is the biggest rainforest in the world. It is in South America, mostly Brazil. It is called a rainforest because it rains nearly every day, even though it is hot.

The Amazon River runs through the rainforest. It is the second longest river in the world.

The Amazon rainforest is home to thousands of species of plants and animals, including birds, insects, mammals, reptiles and amphibians.

There are lots of dangerous animals in the rainforest, such as jaguars, snakes and cougars.

Here is a list of some more rainforest animals:

amazon butterfly	parrot
anaconda	poison dart frog
anteater	sloth
crocodile	spider monkey
golden lion tamarin	toucan
iguana	tree frog
leafcutter ant	vulture
