

Science Activity w.c. 6th July

Recap on the stages of the digestive process explained last week.

Watch the following videos and cartoons to recap:

<https://www.bbc.co.uk/bitesize/clips/z7vygk7>

<https://kidshealth.org/en/kids/dsmovie.html>

Activity:

1. Get a large piece of paper or card. Ask an adult to draw around your upper torso.
2. Make a list of the different parts of the digestive system that you need to include in your drawing.
3. Draw in, to scale, the parts of the digestive system and label them. You can use your labelled diagrams from last week to help.
4. If finished, write explanation of what each part does around the drawing.
