

## Maths Home Learning – Year 6 – Term 6 Week 6 (w/c 6.7.20)

For the final two weeks of the year, Y6 Maths will no longer be following the White Rose Home Learning sessions (apart from the Friday challenge when school is not open to children), although you are very welcome to use them if you would like to. Instead, in school we will be working on Maths challenges such as designing and working out costings for a brand new theme park, as well as creating our own personalised 'Maths Mats' which we will be able to take with us to secondary school. For those of you who can't be in school on these final two weeks, we've added an overview and daily PDFs for this week's fairground design challenge. Have fun designing a really cool theme park!

Please email your class teacher if you have any questions.

### Term 6 Week 6

Please visit the school website to download the daily worksheets		
Monday – Building a budget and planning our theme park on a map		<b>See school website – Term 6 Week 6</b> Y6 Monday Theme Park Presentation Y6 Monday Building a Budget Activity Sheet Y6 Monday First Draft Map Activity Sheet
