

January 2020

Dear Parents

Transport for Exploration

(e.g. space buggies, remote underwater exploration pods, galleons)

As you know, this term's topic is 'Great Explorers'. At home we would like the children to reflect further on this topic by designing and making a vehicle that would be or could have been used for exploring. To accompany their model, we would like the children to present an A4/A3 record of them making it to include: a picture of their design, the materials they used, any difficulties they came across and how they overcame them. (It would also be nice to include pictures of the children throughout the process). We will then display the models at an open afternoon on **Friday 29 February**.

The majority of the homework should be completed by your child at their ability level.

Please can the homework be completed and returned to school during week beginning **Monday 24 February**.

If you have any questions, please do not hesitate to speak to us.

Many thanks.

Yours sincerely

Miss S Hake

Mrs. D Leonard

Mr. N Garcia
