Time to watch the next Number Block episode "How to Count."

Poor Number 3 was getting very muddled in the episode with her counting! It was lucky Number 5 was there to help. Can you remember how to count properly?

*Count everything once.*

*Say the numbers in the right order.*

*Put them in a line and point to one at a time.*

*The last number you say is how many there are!*

How many party hats are there?

Practice counting different things in your home using these rules. Send us a picture of your learning on Evidence Me.
