

Friday 27th November

WALT: understand the features of a non fiction report

Brown Bears

This report is all about Brown Bears. Read on to find out more!

Appearance

Many people think Brown Bears are lovely. They have a large hump on their back, razor sharp claws and silky brown fur. Brown Bears are HUGE. They can grow to 3m tall!

Habitat

Brown Bears naturally live alone in the wild in North America. They hibernate during the winter months in a den.

Diet

Brown Bears are omnivores and like to eat plants and catch fish! Their favourite food is salmon.

Did you know?

Brown Bears are extremely fast, they can run at a top speed of 30mph.

A Brown Bear can catch fish with its teeth.

Brown Bear

Today we are going to write a report about Polar Bears
