

1 Use the picture to complete the table.

Animal	Number of animals
frog	
bird	
duck	

2 Dan is going on holiday.  
The table shows the clothes that he is packing.

Clothes	Total
T-shirt	6
jumper	2
shorts	4
cap	3

Use the table to draw the clothes that Dan is packing.

3 The table shows the favourite ice cream flavours of children in Class 2

Flavour	strawberry	chocolate	vanilla	mint choc
Total	9	13	7	5

- Which flavour is most popular?
- How many children are there in Class 2?
- How many more children like chocolate best than like vanilla best?

4 The table shows the numbers of some animals in a field.

Use the clues to complete the table.

Animal	sheep	rabbit	cow	horse
Total	9		3	

- The number of rabbits is the same as the total number of sheep and cows.
- There are fewer horses than cows.

Is there more than one way to complete the table?

- 3** The table shows the favourite ice cream flavours of children in Class 2

Flavour	strawberry	chocolate	vanilla	mint choc
Total	9	13	7	5

- Which flavour is most popular?
- How many children are there in Class 2?
- How many more children like chocolate best than like vanilla best?

- 4** The table shows the numbers of some animals in a field.

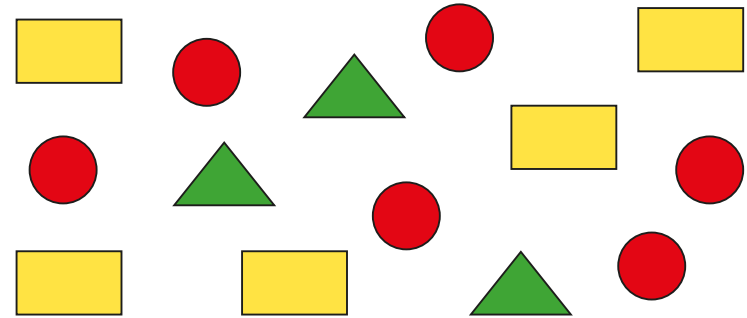

Use the clues to complete the table.

Animal	sheep	rabbit	cow	horse
Total	9		3	

- The number of rabbits is the same as the total number of sheep and cows.
- There are fewer horses than cows.

Is there more than one way to complete the table?

- 5 a)** Ron can use a tally chart or a table to show how many shapes there are.

Shape	Tally
triangle	
circle	
rectangle	

Shape	Total
triangle	
circle	
rectangle	

Which one do you think Ron should use?

- b)** Kay is recording the different colours of cars that she sees pass her house.

Do you think that Kay should use a tally chart or a table?
